Wanna be a member wanna be a name
Wanna be a local face and play the social games
Dancing through a time warp in your dinosaur trends
The limits of your mind is where the County line ends
Listen to the media and accepting as a fact
Following it's orders 'cause you don't know how to act
Travel in a straight line 'cause you don't know another
way
They'll get you in the end, you'll have your hell to pay

'Cause O.C. life is not the life for me
Stupid little chicks and egotistic boys
O.C. life is not the life so free
Pressure's on my back and artificial joys - for you girls
and boys

Wanna be remembered, wanna have some fame
Fighting to stay ahead - it's all a part of the game
Combat authority but don't get out of line
They'll put you in the slammer
You'll be doing some time
"714" tattooed on my head
I find myself labeled, I'm a victim instead
Abide by the rules, I don't see the way
I'd rather be dead than have the price that they pay

'Cause O.C. life is not the life for me
Stupid little girls and egotistic fags
O.C. life is not the life so free
Pressure's on my back
And artificial joys for you girls and boys

Put the plastic right in the machine!
