Why?
A frightened man is chased
Everything in it's place
They wonder why the spirit does
Backfirin' in your face
Breathin' down my neck
Big brother's such a bitch
Well it's all comin' back on all you hypocrites
No compromise, social suicide
Plain and simple, paranoid's demise
Stuck in a corner with no place to hide
Self destruction, paranoid's demise (x4)
Infected with bein' watched
Runnin' from another mistake
Slowly distorts the subconscious mind
Building anxiety and hate
Living the promised lie
Still they wonder why
As we feed on eachother
Corrupting the human mind
When will they realise
Creating anxiety deep inside
Conditioned to obey
To do every little thing that they say
Give it back, give it back, give it back before I snap
Give it back, no surprise, just another paranoid's
demise
Self destruction, paranoid's demise...
