### "Close to you"

I've been looking for the words to say  
I've been looking baby night and day  
Just to show how I feel  
Thoughts of you and me inside my mind  
You've got my head spinning all the time  
I'm so into you

And I just can't forget the first day we met  
You made me shiver  
You're taken me up and down, swinging me round and  
round  
Nothing feels better, better than being with you

Chorus:  
Whenever I want your love you're all that I'm thinking of  
No one else in this world will do I want to feel close to  
you  
Whenever I want your love you're all that I'm thinking of  
No one else in this world like you  
I got to be close to you

There's a little piece of me you found  
You took my heart to a higher ground  
Don't you ever let go no  
I told you baby how I feel  
Now I'm asking you is this for real  
Would you let me go?

Cause I just can't forget  
The first day we met  
You made me shiver  
You're taken me up and down, swinging me round and  
round  
But nothing feels better, better than being with you

(chorus repeat)
