Light comes in and watch you wake  
Needing you so much my heart could break  
To Touch you're skin to fill your hair  
I'd Follow you anywhere

Light goes out I watch you sleep  
Never imagined a love so deep  
I close my eyes I breathe the air  
I'd follow you anywhere

Let the waves watch over you, watch over me  
Follow me, I'll follow you  
'Til your dreams to secret places, here's my hand just  
take it  
I'll show you what to do, I'll follow you

Nobody knows who made the stars  
Maybe the whole world is ours  
From there to here and here to there  
I'd follow you anywhere

Let the waves watch over you, watch over me  
Follow me, I'll follow you  
'Til your dreams, to secret places, here's my hand just  
take it  
I'll show you what to do, I'll follow you

Hmm..whohoeehhoeh..Hmmm...  
..Whoaaaah

Follow me, I'll follow you  
'Til your dreams, to secret places, here's my hand just  
take it  
I'll show you what to do  
Yeayeaahh  
Follow me, said I'll follow you  
'Til your dreams, to secret places, here's my hand just  
take it  
I'll show you what to do, I'll follow you...
