Never thought it'd be like this  
It's you an only you I miss  
An empty bed a bleeding heart  
Reminds me that you're so far away

Chorus:

I know you hear me when I sing  
Letting you know the thoughts you bring  
A lovely smile, your face  
Wherever you are  
You are so near, so far

Everyday this aching grows  
Pierced my heart right through my soul  
The way we held, the words we spoke  
Gives me strength when I am alone

Friends say it's time to let it go  
They say that it's been way too long  
But tell me how can I go on alone  
I thought we'd be together  
You and I forever

(chorus)

If I had wings  
I would fly in your direction  
Sail the seven seas  
To have you near  
And I would never, ever let you part  
For you would always  
Be here in my heart

(chorus)
