Lyrics: Hirsch November '95

Pray for darkness, pray for the world below

Pray for winter, pray for forever snow

Pray for the sun never to rise above the hills in the
horizon far away,

far away

Forever night

Ah... Forever night !

Pray for sorrow, pray for melancholy

Pray for sadness, happiness will never be

And at night, we'll walk together, you and I

And pray for your soul not to perish in the darkest of
nights

Chant of the Witch:

"Spirits whispering in the darkness

Shadows dancing in the night

Fear the demons, ever present

Run in panic, scream in fright"
