They force feed you love, then serve you hate  
What are they teaching? I just can't relate  
Altar boys are the victims he defiled  
He took advantage of the virgin child  
Got them drunk and told them what to do  
He won't say it, but you know it's true  
There's a reason why he remains free  
Hides behind the cloak of the clergy  
He was a man, they were just boys  
Human beings, not just toys  
A god who'd allow such atrocity  
Ain't no good god to me  
No redemption for what he did  
Crimes committed on a little kid  
What do you say? Don't wait for a sign  
Trust in god and have peace of mind  
He took something, he can't give it back

Took that innocence, can't give that back  
Altar boys are the victims he defiled  
He took advantage of the virgin child  
Got them drunk and told them what to do  
He won't say it, but you know it's true  
A catholic priest, he's committed to sin  
What would they say at the vatican?
