Come on

Born to lose maybe, but not through you  
Not like you, thank you God, not, you're too confused

Yeah

Little one what I need ain't what you bleed  
You've got your words twisted funny  
A simple fool ain't what I am, nor yesterday  
You tend to burn me all so clean  
You always point you finger

You've got me hanging upside down  
Deep inside you've got me all wrong now  
You've got me hanging upside down  
On a cross, that's burning, burning

Break my back under the weight of your eyes  
Broken by your one-sided compromise, come on  
Drop a dime on what you say is everything  
Not for you, no time for any saving grace  
This fire's burning brighter  
The tongue, the match that ignites these flames  
So quick to point your finger

You've got me hanging upside down  
Deep inside you've got me all wrong now  
You've got me hanging upside down  
On a cross, that's burning, burning

You're not changing me  
You got me all wrong now  
You're not changing me  
You got me all wrong now

Yeah

You got me hanging  
Ooh, yeah  
You've got me hanging upside down  
You've got me all wrong now  
You've got me hanging upside down

You've got me all wrong now

You've got me hanging upside down  
Deep inside you've got me all wrong now  
You've got me hanging upside down  
On a cross, that you're burning

You've got me hanging upside down  
Deep inside you've got me, you've got me wrong  
You've got me hanging upside down  
On a cross, that you're burning

You're not changing me  
You got me all wrong now  
You're not changing me  
You got me all wrong now
