

**D12****"Rape A Bartender"**

Visit "[Rape A Bartender](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Intro:

When the bartender fuck your drink up  
I said Absolut cranberry

Bizzare "First Verse:

Seen this white bitch that I wanted to rape  
So I said "fuck it" and I asked her on a date  
Lots of cash, we went out to a casino  
Just me and a girlfriend, out there playing Bingo  
So I'm trying to think of a way to make my attack  
I got a 3-piece with an axe in the back  
And I fucked her raw, gave her black cock all night  
I ain't Brian Pumper, I'm more like Wesley Pipes  
Now it's back to this bitch getting raped  
2 chainsaws and some black duct tape  
Said she was sorry, didn't want me to take her life  
I said "fuck that" and stabbed her with a knife

Hook:

We raped the bartender  
And now Bizarre is in her

Second Verse:

Woke up this morning, almost late for my flight  
Probably from the way I was fooling at the bar last night  
I remember this one chick, body looking so right  
Damn it what was her name?

She had a boyfriend, dude was staring at me with a  
mean mug  
Probably cause his girl's staring at me like she wanna  
fuck  
Don't be mad at me, stupid, don't bring your bitch to  
the club  
I'll shoot two in your brain  
Don't let this bar tab fool ya, I'll dump you in the trunk  
You lost your life cause your girl thinks I'm cooler than  
you  
You had too much to drink  
You better stop and think  
Before you end up on Channel 5

Hook:  
I raped the bartender  
You bout to get your ass beat

Third Verse:  
Walked up in the club and I strolled on over to the bar  
Breath a little on tard and I left my big bed in the car  
Got my gun by my side, try to homie and you won't get  
far  
I'll shoot the shit out of you  
But anyway, I posted up and ordered my drink  
She gave me some Henny turned away, and muttered  
"man your breath stink"  
Snatch her up real fast like "bitch don't be  
disrespecting me"  
I'll slap the taste out your mouth  
She took a swing, I dipped  
Came up and molliwopped her face  
She pulled a knife, I stepped back  
Pulled out my big Gat  
Somebody's in the morgue tonight
