Gorillaz, back the fuck up, D12

There ain't no trouble in rock

(Rock)

On every block

(Block)

Late for school, late for work

But ahead of these cops

(Cops)

My credit is shock in the detinate box

(Box)

Like people take my life and that's pathetic as Pac's

(Pac's)

A waste of the talent, say my boys is just nowhere

Placed on the planet, remain in poisonous warfare

Derelict Arabic terrorists in the air

Shit arrogant apparent to punish people by their
heritage

NATO barriers, hate embarrassed there is the faith to
cherish

In your room face to face with race awareness

A race to shit, army bombin', your God is with you

Calm over war, we gotta start our pistol

'Cause if you right and know you right

Then where's your righteous ways

We sacrifice, snatch your life, many nights and days

Follow me into equality we might behave

And only Christ can say, the trife will reunite again

America owns without a fucking care in my dome

Bearin' my bones, so far away staring at home

Stay at my zone, falling asleep late with my chrome

Feelin' hype from these rockets burning

Like straightenin' in the cones

Stay at the streets, bullshit and plans to beef

Spray at your peeps for Christmas, give a K to my niece

Real niggas feel us and fear us, Gorillaz beat on

They chest when dangerous lyricist, I hope that you
hear us

The spirit of Bugz is still in me, God bless it, the trinity
'Cause my bullets they come in three's like trilogy's
Put the knife away, missiles away, strike and blaze
So much smoke you can't tell the difference between
night and day

Right away blow your life away, so light your haze
Hold tight grenade's so when it blows I'm slightly
grazed
Kuniva might be crazed, unleashin' unlikely rage
The next time you hear a verse from me, I might be
caged

Aaa ahhh iyy aaaa, ahh haya yaya yay
Aaa ahhh iyy aaaa, ahh haya yaya yay

Every night I talk to a black hawk, taking heroin in bulks
Watch my body hit the chalks
I'm too lazy, mescalines got me crazy
Rape this old lady, while the bitch was having a baby

And I ain't never going home, Bizarre can forgo
It's cold I'll be for cyphering, right from wrong
As I sit in my seat and remain calm
And close my eyes and wait for the bomb
(Here it comes)

I'm gettin' the fuck on, I'm aggravated
I know I'll make it, I'm in a place full of hatred
Treatin' my life like a sacred try to check me
I break your neck, disrespect me, you get injected

It's hectic with some bullshit that happen
You least expected, we just don't accept it, nigga
I go ahead, lift my trigger, get rid of bitches
Pay you a visit, then get your shit lit

I'm a nitwit with a big dick, and big balls
I don't miss shit, I hit all
Whoever that did this, we gonna getch y'all

Yo, yo, now whether it's Saddam or Bin Laden
That's been startin' all this trouble for us
Creepin' horrors doin' show after show, sleepin' on the
tour bus
We lost Aaliyah, lost our families, it takes no Tenges

You don't need us to say the world is fucked up

Aawgs can see it, now it seems the public needs this
Shit to calm its kids 'cause they findin' out how you lied
About your twisted sins, they say, we bad for you

But shit our music, is your friend, they can't deter you
From the truth 'cause we the helping hand, we are one
And one is all, we are, we are, we are one and one is all

Aaa ahhh iyy aaaa, ahh haya yaya yay
Aaa ahhh iyy aaaa, ahh haya yaya yay
