Judy aint no punk & she aint no runt
She found a new way to have fun
Shes suck of the whole world now
And she just wants to kill everyone
Judy judy she don't care
If she gets her way she'll never stop
Judy judy she don't care
She's gonna cut your head off
Just ask all the assholes who got in her way
By the time you see her it's too late
She's living for today cause she aint got a future now
And she could really give a sh*t
If they found a way to stop her somehow
