When i first saw you i knew i'd hate you  
Everything you've done i'm not the only one  
I can't believe that you're still alive  
Nothing going on behind your eyes  
Lose the attitude drop the stare  
Stop complaining i don't care  
Just shut up & go away  
Seeing your face f\*cks up my day  
NOBODY WANTS YOU AROUND  
Whenii first saw you i knew i'd hate you  
Everything you've done i'm not the only one  
I'm sick of you saying that you're punk  
It don't matter how you spike your hair up  
Lose the attitude drop the stare  
Stop complaining i don't care  
Just shut up & go away  
Seeing your face f\*cks up my day
