Your heart stops my melting gun the parking lot the
triple fun don't you know we couldn't miss none of this
our loving ain't cold so don't call it trash
Drop the pressure god the mountain feet the holy plot
Can't take the passion into crashing the need
I need your flesh cause I need your flesh
Eternity in the name of love and liberty call it humanity
on a one way trip to vanity no we couldn't break up or
call it no fatality no fantasy
I guarantee you quality and quantity eternity
