Rosie, they ran rings around you
I can't be a day or two without you
Rosie, I can't believe it
You're always getting yourself into something

Rosie, please don't panic
Don't worry, it will be over in a bit
You'll be back to the girl that
Makes me smile more than anyone else

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

Rosie, you're so indecisive
You're not sure how to leave a crisis
Rosie, let's go out tonight and be back to the girls
Who never leave each others sides

Rosie, it's back to basics
You and me, a pig farm and a jeep
Rosie, let's just take it easy
And let the notebook sink in deep

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

And I fall, and I fall, and I fall

You have always been the one
Who I could always have some fun
With when I am feeling down
You're always good to have around

Never ever got a problem with it
Always there to help me out
You never push or shove or shout

You know I'd do the same to you
When life is hard and leaves you blue
Just grab your phone. I'm here to talk.
Or come over, we'll take a walk.

Never ever got a problem with it
Rosie, you're my closest friend
You'll never be alone again, again, again, again

Rosie, please don't panic don't
Worry we'll be over in a bit
You'll be back to the girl that
Makes me smile more than anything else

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

Do the same for me
I know that you are always there, oh
Everytime I snap
Everytime I crack and I fall

Do the same
Do the same
