

## Daan "Smokesucker"

Visit "[Smokesucker](#)" on MotoLyrics.com

I'm only craving for something to ease  
My little childlike mind can never be pleased  
My weary soul sets fire, I'm down on my knees  
Is it the key to the kick or the king of diseases of a  
smokesucker?

Paintrigger, braindigger  
Firecracker, codeword hacker

I'm only thinking hard, shopping starts, throwing darts  
Sparing parts, beating hearts, farting arts  
Glueing all the pieces of a smokesucker

Dopeddealer, hopestealer  
Finefeeler, 16-wheeler

I'm only craving for something to ease  
My little childlike mind can never be pleased  
My weary soul sets fire, I'm down on my knees  
Is it the key to the kick or the king of deseases of a  
smokesucker?

I'm a smokesucker, I'm a smokesucker  
I'm a smokesucker, I'm a smokesucker  
I'm a smokesucker, I'm a smokesucker  
Just a smokesucker...
