Well Ive been looking in your eyes
And youve been looking in my eyes
Well theres a reason you came to this tonight
Theres a reason you came to this tonight
Can you tell me?
Can you tell me why things are falling apart?
Theres a reason
Theres a reason
Can you tell me?
Can you tell me why things are falling apart?
Theres a reason
Theres a reason
All the fish in the ocean
To all the birds in the sky
To all the hearts that are broken
Well theres a reason you came to this tonight
Can you tell me?
Can you tell me why things are falling apart?
Theres a reason
Theres a reason
Can you tell me?
Can you tell me why things are falling apart?
Theres a reason
Theres a reason
But this world is not our own
Though we thought that it could be
Yes this world is not my own
Though I wish that it could be
Can you tell me?
Can you tell me why things are falling apart?
Theres a reason
Theres a reason
Can you tell me?
Can you tell me why things are falling apart?
Theres a reason
Theres a reason theyre there.
