Suck it in your senses, drink it down your throat
Hooked on their addiction, is there any hope?
In a sex wrapper, in a glided cage
We've been captured animals, but we should be
enraged
Poison in your brain! Poison in your fucking brain!

Earth and air and water will never be the same
Sold for the sake of progress for so little gain
A pill of pleasure, a pill of pain
Take a pill for self-esteem, they're fucking with your
brain!

Poison in your brain! Poison in your fucking brain!
