Time is lost in motion  
Are we already there  
Twenty-first breaks(? )

And I recall  
See island cotton(? ) shirt you wore  
And the way they played around your neck

I have been told  
You would be there  
You said last it's time for a  
Road trip...to athens  
Road trip...to athens

Tear me up  
I swear I won't remember  
No I won't remember a single word  
There he was  
I swear I saw him walking  
When I walked into the georgia bar

I have been told  
They would be there  
You said last it's time  
For a road trip...to Athens  
Road trip...to Athens

Whoa, we smile in silent recognition  
Playing their new release(? )

Road trip..  
To athens  
Road trip..  
To athens  
Road trip  
Road trip  
Road trip  
Road tr-i-i-i-ip
