The obscene lie  
Enemy controlled designs  
The light failing to incite deception

A new time is chosen for endless sleep  
Anticipating Visions  
A night less destiny

The day of endless light  
Consumed in the Darkness  
Black iris of the sun  
Consumed in the darkness

This time the trickery of light remains  
Illuminate dark paths

A new time is chosen for endless sleep  
Anticipating Visions  
A night less destiny

The day of endless light  
Consumed in the Darkness  
Black iris of the sun  
Consumed in the darkness

(Solo: Werstler)

A stone inside me that defies the truth  
A hidden blade, the piercing light of the sun

The day of endless light  
Consumed in the Darkness  
Black iris of the sun  
Consumed in the darkness
