Verse 1

You were born
Under a July silver moon
How could I have imagine
You will be here that soon

Just a call

Your daddy's voice on the line
Telling me you just arrived
Feelings rushed, so I wrote them down

Chorus

Little Baby Girl, Candy Pearl
My song is for you
Count on me as you'll grow up
I will always be here for you

Little Baby Girl, Candy Pearl

May your life be sweet and true
I wish you all the best to come
My lucky star's on you

My Little Baby Girl

Verse 2

Watch out !
Life's a tricky thing sometimes
You will love and you will hate
And often you will fight

Stay still ! Hold on !
Storms will pass if you remain strong
Just know I will be by your side
So keep the faith, enjoy the ride
