Talking in her sleep again  
Reciting lines start to end  
She's not crazy, knock on wood  
Just a little misunderstood

Takes a walk at 4 A.M.  
Wakes the neighborhood again  
And I found myself recalling  
Everything she used to tell me

Aw yeah, alright  
Truth hurts inside  
Aw yeah, that's right  
You go around once in life

Everybody wants to be a part  
Everybody loves a situation  
Who would ever want to play the part  
Of anonymous numbers on a governmental chart?

She's waiting tables the next day  
She pulls a double then on her way  
To an audition in Hollywood, yeah  
A little misunderstood

We sit around the house  
Waiting for the phone to ring  
And I know she alone holds the key  
To everything I want to be

Aw yeah, alright  
Truth hurts inside  
Aw yeah, that's right  
Go around once in life

Everybody wants to be a part  
Everybody loves a situation  
Who would ever want to play the part  
Of anonymous numbers on a governmental chart?

Everybody wants to be your friend  
When you've got something you can give them

All I've seen, bad and good, she's not crazy  
Just a little misunderstood

Aw yeah, all good  
She's not crazy  
Just a little misunderstood

Two years later you're a star  
Who'd have thought we'd get this far?  
But I'd give it all away if I  
Could see you on that day again

When you quit work  
And threw that coffee at the manager jerk  
Said, "Close your eyes, I've got a surprise  
A house in the hills and a car that drives by"

Aw yeah, alright  
Truth hurts, don't it? Inside  
Aw yeah, that's right  
You go around once in life

Everybody wants to be a part  
Everybody loves a situation  
Who would ever want to play the part  
Of anonymous numbers on a governmental chart?

Everybody wants to be your friend  
When you've got something you can give them  
All I've seen, bad and good, she's not crazy  
Just a little misunderstood

She's not crazy  
Just a little misunderstood  
She's not crazy  
Just a little misunderstood

Aw yeah, all good  
She's not crazy  
Just a little misunderstood
