Join me in the realms of madness  
You, Rising Death  
Join me where the winds are weeping  
And trees have no hearts!

Take me to the land of fathers you Mighty Star Dweller  
Across the barrens and evergreen woods  
To home of my Damned Kind  
The burden of time I try to struggle with  
Holds me to the ground I cannot breath  
Sands fills my nose and maggots in months  
From centuries I seek for my Promised Land  
She is my asylum in Road of Death I walk  
This little mortal creature she knows to whom I belong  
Her fearless eyes gazing so faithfully  
Crystalline as ice that chained my humanity

Behold the fear in your blazing hart  
Rip off your bars of pain and despair  
Together will be walking through the ashes of grief  
Caressing my pity, violating my pain  
In golden chalice I keep my lunar breed  
Like a host of lamb, drowned in blood  
With colors of night I will spread on your hair  
The veil painted in dusk and despair

From your heart I tear all your fire tears  
Master of confusion I'm falling on my knees  
With bloodthirsty blade I want to share your fate  
To never see when my colors begins to fade  
In silence I cut night to free the stars  
In scream of emptiness I find a feeling deep inside  
In this river flowing over hills and plains  
We shall drown our sorrow, grimness and despairs

In silence...  
I cut night to free the stars  
In silence...

I touch her skin so cold as marble stone  
Her closed eyes reminds me that I'm alone  
The river's dry and no-one fills my emptiness

This wounds will never bleed remains without caress

To dare the Devil I must walk the Path of Death  
And never see the land in which my demons breathe  
With burning heart I stand alone on snowed peaks  
In winds that freezes mind, in urgent heat of feel...

To reach the crown of life with Dragon I must fight  
Devouring me from inside, in every lonely night  
Did fire burn again did mirrors shows my face?  
Do I return on road once more, when heart step out of  
trace... ?
