I swore I saw you in a crowd  
Suddenly my heart began to pound  
Emotions flowing up and down  
(are you feeling like a fool, girl?)  
Really miss you so badly now  
(didn't want him when he wanted you)  
Now I know what goes around comes around

I'm sorry now  
'Cause when I left you for him  
Was supposed to be better  
And I'll regret it forever, and ever

I'm naked and shaken  
I know I must have been crazy  
For letting you slip away from me  
And now I see that  
It's taken, heart-breakin'  
To see I'd be missing you baby  
God what did I do  
Falling out of love with you

Did a drive-by past your house  
Is there someone I don't know about  
I saw another girl coming out  
(just drive away and don't look back now)  
Wish I could turn back time somehow  
(don't you know you missed your chance girl)  
What can I do, I'd crawl to you, I'm not too proud

It's too late now  
Why did I leave you for him  
You were so much better  
I will regret it forever, ever and ever

I'm naked and shaken  
I know I must have been crazy  
For letting you slip away from me  
And now I see that  
It's taken, heart-breakin'  
To see I'd be missing you baby

God, what did I do?  
Falling out of love with you.

Do I have to spend my whole life  
Paying for one mistake.  
You gave me a love I took for granted  
Baby, what was wrong with me?  
I want you (can't have him)  
I need you (she's got him)  
I've got to have you back again.  
Please give me one more chance.

I'm naked and shaken  
I know I must have been crazy  
For letting you slip away from me  
And now I see that  
It's taken heart-breakin'  
To see I'd be missing you baby  
God, what did I do?  
I'm still in love with you.

I'm naked and shaken  
I know I must have been crazy  
For letting you slip away from me  
And now I see that  
It's taken, heart-breakin  
To see I'd be missing you baby  
God, what did I do?  
Falling out of love with you  
Falling out of love with you  
Falling out of love  
Falling out of love with you
