I'm staring at your picture
So won't you dry away my lies
I'm hiding in your garden
And the rain keeps pouring down
So let me into your room
Chorus
But it's all imagination, play with love
I'm feeling like a fool
But it's all imagination, play with love
My imagination
I'm sleeping by your window
It feels like I've been here for a thousand years
I'm waiting for the night to call
Still the rain comes rushing down
So let me into your room
Chorus
But it's all imagination, play with love
I'm feeling like a fool
But it's all imagination, play with love
My imagination
(Play with me, my imagination)
