Made the mistake once won't make it again
A hiding place for special friends
Everytime's the last time or closer to it
It's always growing but you can make it fit
No one will see
This is the new pornography
It's free
This won't last forever
It won't last much longer at all
It's done, oh well
It's the best night of your life
Won't erase it
I misplaced it
Has it been found?
Was it rewound?

So sick and full of shame
Serial something does it have a name?
Was a nice guy, what happened to that, now a total jerk
And I can't go back
Did good for two minutes there, it will pass by fast
I make good stuff go away, I can't make it last
