Love makes it good to be free well I'll take it shorter

now if I had the time to well I'd make it longer

One makes it two to find the three to change

my four it's over now if I had the chance

I'd do it again and make you warmer than...

SURPRISE You make me get away slow

So you'll pull me back You make me

get away oh and now you want me back

Love me through

Love me through

Love me through.....

Why you wanna wait til I stop
