I'm swimming all around in confusion

It takes me for a ride

Hearing the bells they're ringing

I think I'll run and hide

It's crazy what you seem to do

Every now and then

It's crazy what you seem to do

When you're wasting the people

and you don't even care

WELL

It might be you It might be me

Dealing with mentality

I'm Blown Away

Hearing the bells they're ringing

When I try to sleep

Fearing the evil minded

That prey upon the weak

Well I think about the Boogie Man

Every now and then

Well I think about the Boogie Man

Whose coming through my door right now

It doesn't have to be that way

We can be free if you want to

It doesn't have to be that way

We can be one if you want to

Every time I look around

I think

Is there someone staring down at me

Everytime I look around

I thank

the God above for making me the man that I am

It feels like-It's foolish everywhere

It seems like-It's crucial everywhere

I never thought I could be stapled

by the metal in the gun

I never thought I could be stippled

by the metal in the gun

It might be you - It might be me

It might be you

I'm Blown Away

I'm Blown Away

It might be you - It might be you

It might be you

I'm Blown

Away
