"One Through Four"

Visit "[One Through Four](#)" on MotoLyrics.com

Love makes it good to be free, well

I'll take it sure

But now if I had the time to, well

I'd make it longer

One makes it two to find the three to change mind 'four
it's over

But now, if I had the chance

I'd do it again and make you want my hand

Surprise

You make me get away slow

So you pull me back

You make me get away, oh

And now you want me back

Love makes it good to be free, well

I'll take it sure

Now if I had the time to, well

I'd make it longer

One makes it two to find the three to change mind 'four
it's over

But now, if I had the chance

I'd do it again and make you want my hand

Surprise

You make me get away slow
So you pull me back
You make me get away, oh
And now you want me back
Want me to get away, oh
Love makes it good to be free, well
I'll take it sure
Now if I had the time to, well
I'd make it longer
One makes it two to find the three to change mind 'four
it's over
But now, if I had the chance
I'd do it again and make you want my hand
Love me too...Love me two...
Why you want to wait till I stop
