Hey, please knock me down  
Back down to the earth  
So I can recall what all this is worth  
I got what I want  
But that's never enough

Hey, please knock me down  
Back down to my face  
So I don't take for granted this beautiful place,  
This beautiful space  
Your beautiful face

Chorus:  
But you, you make it so easy  
You got the perfect change  
The perfect change for me  
You make it so easy you got the perfect change  
The perfect change for me

Stop, don't throw me no rope  
I've said my good-bye's  
I'd rather be here in the pull of this tide  
Did I just close my eyes  
Or did I open my mind  
For the very first time

Chorus

I've said my good-bye's  
I'd rather be here in the pull of this tide  
Did I just close my eyes  
Or did I open my mind  
For the very first time

Chorus
