Daly's Gone Wrong
"Emo Is Key"

John driving down 87, no looking back the CD's playing
The music's good and I'm alright and if it's great it's a good life
Changing lanes lets make it loud, where we go? Next stop So Cal
Room for four and now there's three, dying hopes and growing dreams
I talked to Jah and what he said, really made no difference
I tried to call it didn't work, you don't know how much this hurts
I'm going blind and I can't see, I'm holding onto memories
NYC I've had enough, if the car stops we'll catch a... (bus)

He said "I like this window but it always stays the same,
Everyday I pray when I wake up it has (changed)"
He said "I like this window but it always stays the same,
Everyday I pray when I wake up it has (changed)"

Nothing ever made me smile like watching Cleary dance for a while
And if she sang a word or two, well I'd be happy with the few
But I swore drawn enemy lack the persuasion of a movie screen
A steady line forgot the rest, say "Oh my God you are the best"
Think about and what it was, this and that a worthless cause
Once a day a second time So I'm told "It's hard to find"
I'm going far way past this scene
I'm holding on to memories
NYC I've had enough if the car stops we'll catch a... (bus)

He said "I like this window but it always stays the same,
Everyday I pray when I wake up it has (changed)"
He said "I like this window but it always stays the same,
Everyday I pray when I wake up it has (changed)"

I thought about my life today and if it's worth all they
say
Every cent borrowed will get paid it isn't worth the time
to save
Star shines so bright but never shined on me
Searching for a light while falling on my knees
Took a ride past five... Glad I made it back
So I took some time... Time to think about
