

Daly's Gone Wrong "My Girlfriend"

Visit "[My Girlfriend](#)" on MotoLyrics.com

My girlfriend has faith in me, something that I never
had
I think I suck at guitar, she says "you're not bad"
My dreams were shattered a long long time ago
My girlfriend says "you're a real special guy but you
just don't know"

Every time I fall you'll pick me up from the ground
And you'll still love me big or small twenty years from
now
And I thank you girlfriend for being there for me
Your right here in my heart where you'll always be

My girlfriend will call me and see if I'm alright
And we'll talk for hours all through the night
If there's one thing I want you to know, you're the
biggest part of my life
My girlfriend will give me a kiss and hold my hand real
tight

Every time I fall you'll pick me up from the ground
And you'll still love me big or small twenty years from
now
And I thank you girlfriend for being there for me
Your right here in my heart where you'll always be

Every time I fall you'll pick me up from the ground
And you'll still love me big or small twenty years from
now
And I thank you girlfriend for being there for me
Your right here in my heart where you'll always be
