Cloud falls On My Mind, It's Taking Up All My Time
There's You, There's Me... I'll Be Just Fine
Step Back Watch It Glow, It's Killing Everyone You Know
Individuals Dying... I Feel So So
Be like Mike and be like him, just another one on the
bandwagon
Look like you and I bought what's new
Now everyone else is gonna think... I'm cool

Cause I'm different that's o.k., I don't really care
I like you for what you are, not by what you wear
Cause I'm different that's o.k., I don't really care
I like you for what you are, not by what you wear

Hanging out all night, throwing down gang signs
Picking on kids right under dark street lights
Talk about unity, talk about friends
Next time you choose leave out the stupid trends
Deep inside it's poor or fame
You could say shit were still all the same
Punk rock, ska, hardcore, or oi
In the dance hall is where we're all boys

Cause I'm different that's o.k., I don't really care
I like you for what you are, not by what you wear
Cause I'm different that's o.k., I don't really care
I like you for what you are, not by what you wear

Punk rock, ska, hardcore, or oi
In the dance hall is where we're all boys...
