Fire - Combustion: a process, a weapon, and a tool  
Hate - the angst that brings my blood to boil  
The refuge and agony of fools

Termination of lucidity  
Poisoning everything  
Regression

Turning to the sign of the cross  
Frightened delusion of sanctity  
Burning the sign of the cross  
Heightened illusion of superiority

In you - soon entomb

Betrayal of traits that unify  
Betrayal of giving in  
For god to even your scores  
To a sadistic suffering  
Icon of flesh

What if your crime  
Polluting innocent minds  
Reached another low?  
Are you too idle or too thick to deal  
With the complexities of what is real?

Ill? Insane?  
Vomiting memes:  
Gangrene of the mind

Screaming for a beyond  
So desolate within  
Petrified to the core

Staring into the illusion  
Screaming for a beyond  
Desperate, never giving in  
Incoherent

Bleed for the infinite mercy of god  
In the staring faces of those who died

In the faces of dead  
Icons of flesh
