CHORUS

I love li love
I love li love you
Nobody can change my mind
Your one if a kind
I love li love
I love li love you
No one loves me better it's true
Was not so long ago
That I was all alone
I had so much doubt in me
I had so many dreams
But fear got the best of me
Then came you to set me free

RISE

So more than you no your the one
Who really really changed my life
Now whether I win or lose
I will never be afraid to try, that's why

CHORUS

I love li love
I love li love you
Nobody can change my mind
Your one of a kind
I love li love
I lovell love you
No one loves me better it's true
You taught me how to dream
That no goals beyond my reach so now I reach for the
sky
Love me with honesty
Showed me what the word should mean
Now your all I need to get by

RISE

So more than you know your the one
Who really really changed my life
Now whether I win or lose
I will never be afraid to try, that's why

(CHORUS TO FADE)
