Lying in wait for the hit,  
Waiting to bite on the bit,  
Timing and etiquette,  
Tactical triggers to bring on the practical hype.

Take your chances, make advances.  
Open up hearts of the scheduled targets  
In order to ensure complete control delivering all  
Operational acts of a novelty counter intelligently.

Make all breakers undertakers,  
Set your pilot self-opinion free,  
Fall down corruption, circumstances crumble  
Plausible deniability, attrition shoot through knees  
compartment  
Hated tools unyielding to the rules hashassinated.  
Rifle through them synchronized cleansing.

Decapitate, take your time, don't fumble,  
Fixated revelation, subsequently taken back,  
Retract delay, magazines churn the barrel,  
Burns systematic, don't check the targets,  
Hit the resonating fear.

Betrayal of cloak n' dagger inquest a climate test,  
Investigations cover up,  
Beds are made for being wardens of the free.  
State currents abate, the body's left to wander with  
the tides.

Applications, moral factions,  
Dictating reason and callously tactful of hate tax  
Dodge facts, fire intentions,  
Plant your fertilizer, bombing the vertical axis of  
lies.

Take your chances, make advances,  
Take your aim, count  
Three, two, one more time less taking all transactions  
Censored directed retractions,  
Take your time, mount in sight,

Blown away transactions,  
Place your lie retractions, assassinate.  
Practical tactical bleeding of insistence,  
Alternative method of change.

Kill the messenger and his messengers,  
Marring the process to pieces,  
Selective assassination rules,  
Making the kill-for-life killing itself for me,  
But I'm sickness, it's focus is solely for systematic  
in extinction  
To breathe back the blood revive,  
Exit the real world to see what you've done to be a  
target.
