

## Damaged "Head Trauma"

Visit "[Head Trauma](#)" on MotoLyrics.com

blood and scorn  
the politics in piss you fix  
a christ parade  
points of reason sorely missed  
you missed

first your story hit without a glitch  
before it crushed itself to bits, you thought  
your stories told are old  
the politics of missing it

I'm through with it, well over it, done  
I'm moving on with with what is mine, nevermind

bastard, broken dreams and shattered minds  
policies you hope to find  
cause in your mind you'll never hide  
for what you breed is what you'll get

I'm through with it, well over it, done  
I'm moving on with with what is mine, nevermind

same old, same old, stories and clicks  
same old, same old, bored with what you fix  
I'm done with all your foolish fallacies  
the politics in piss you fix  
your policies in piss
