Walk blind and burn in every step

Indifferent to particular sides  
Capture a soul, symbolic of status that's found  
Instinctively drives down desire  
Becoming greedier

Walk the line scream out in the face of  
Impossibility, imagine that, plutocrat  
Mistaking traits of lust for disgust  
Or honesty?

Round and round, purpose, will and chance or inflicted  
Suffering a tailored fate  
That suffering whim of not listening to him  
That freedoms built in you

All is always to be it seems to be a therapy  
Intent to supplement the torment of being crucified  
To satisfy...  
Bleed yourself, bleed for realisation  
Testify, channel devotion inbound crowned  
King solitaire, drive away care, uncover what we are

Be yourself to burn in every step

Shaken and stirred, revelation word  
An investor supplier, a martyr messiah  
Coming again decadent intent  
An idealistic mould uh

No dog but life no wrong but right

It's the boundaries of the mind, prejudicial in the way  
Contradicting how to think  
Illinformed on what to say

Albies, generalies, crucified, socialies

Fight for power born inbred  
Scold the symbol in your head  
Illinformed on how to think

Contradicting what u say

Arm the insane, deliberately

Listen to this to that to fable this n' that

Autonomy tries to be control essentially

To believe deny

Correct n' lie in harmony

Descend on the path to "know"

That freedoms built in you
