Fus one fi mi Muma but mi Pupa last son  
Like some fruits in due season a so Jr. Gong come  
And mi deh 'round dis ya music from mi small and mi

Mi use to play Familyman bass, knock Carly's drum  
And any question you can ask I man can answer mi son

Well, Jr. Gong is coming up and doing well excellent  
Treat the people right you stand out predominant  
Loving don't cost not a farthing neither a cent  
But should you spend the money that a money well  
spent

Anyway, bigging up Jah Jah, blowing breath like a vent  
Listen to the girls dem with angelic talent  
Chant Nyahbinghi, burning up the serpent

Please we teach the youths them loving not violence  
And from you naw say loving we beg you keep silent  
I say loving, loving not violence  
And from you naw say loving me beg you keep, Lord

I said, look who is driving Ms. Daisy  
The whole world is getting so hazy  
The people they are getting so crazy  
The wonders they don't seem to amaze me

It's been a long time the world's been waiting for this  
Well, Jr. Gong him come again him have some brand
