You never hear a weh the Jr. say
See many girls who look so fine
And still I'm searching even night and day
An can't find a gal who look so lovely

You never hear wey the muffin' say
Trode through the valley of the sweat and tears
And still he's searching even night and day
Can't find a gal who look so lovely

You set the standard for all prestige
You're beauty plentiful just like plenty sand on the beach
You should a keep in a showcase when guarded by police
Me tek ten thousand chariots just fi reach

Well, mi see she blush then she bawl good grief
Gwan Jr. Gong you is living masterpiece
Well, a so me know she weak under mi speech
Mi big up Ragamuffin cause me learn as you teach

A the muffin show I and I how fi dress so neat
The proper way to behave anytime parents a meet
The courteous smile the only way to greet
Bon jour madam would you please have a seat

A cool beverage or maybe something to eat
I said a lady like yourself should not be seen on the street
Good thing mi no diabetic cause the way you so sweet
Nuff tender touches to sweep the girl off she feet

She said my aspect of life is genuinely unique
She need a real Ragamuffin to compliment her physique
And sing

You never hear a weh the Jr. say
See many girls who look so fine
And still I'm searching even night and day
An can't find a gal who look so lovely

You never hear wey the muffin' say
Trode through the valley of the sweat and tears
And still he's searching even night and day
Can't find a gal who look so lovely

Woman I would like to let you know just how this man
feel
And express myself so the secret reveal
Gal me love you like how Georgie love cornmeal
I would like the privilege for me and you just fi deal

Well, full dedication I'm taking for real
You and me was meant to be just like a pedal and
wheel
You a the treasure everyman want to steal
Excellent qualities with cross over appeal

Take you on a trip through the West Indies
Or maybe me and you can spend some time overseas
Well, smile fi awhile then she bawl yes please
Gwan Jr. Gong go show your expertise

Well, right then and there mi observe wey mi need
She's sweet than the honey that we get from the bees
Right at my finger tips is to touch and to tease
Cause mi de in a di program from mi eye deh a mi
knees

Ital stew under nuff gungu peas
She want a real Ragamuffin to hug
And to squeeze

You never hear a weh the Jr. say
See many girls who look so fine
And still I'm searching even night and day
An can't find a gal who look so lovely

You never hear wey the muffin' say
Trode through the valley of the sweat and tears
And still he's searching even night and day
Can't find a gal who look so lovely

You never hear a weh the Jr. say
See many girls who look so fine
And still I'm searching even night and day
An can't find a gal who look so lovely

You never hear wey the muffin' say
Trode through the valley of the sweat and tears
