Sophie

Get up of the ground floor; these are the things in
life we're all working for
Move on up to the next floor,
the stairs & chairs & shit it's what it's been put there for
I won't wait till the next chance; you got it all in
life girl it's in your hands, yeah in your hands

You kinda take a piece of me every time you're driving
Sophie won't wait
You really take a piece of me every time you're leaving
Sophie won't wait

I can see in your blue eyes these are the dreams of
a grown girl in between these lines
I won't wait on the next chance; I got it all in life
girl it's in my hands, yeah in my hands

You kinda take a piece of me every time you're driving
Sophie won't wait
You really take a piece of me every time you're leaving
Sophie won't wait

You kinda take a piece of me every time you're driving
Sophie won't wait
You really take a piece of me every time you're leaving
Sophie won't wait x 2
