"Forever"

Visit "[Forever](#)" on MotoLyrics.com

Take a look inside your heart, What do you see is it you
and me
Write a book of words apart, that I couldn't speak so
out of reach
When I touch you here I know, your all that feels like
home
No I could never leave you ever

Girl you know that I'll be by your side forever
And you know why I'll be by your side forever
Girl you know that I'll be by your side forever
Forever

Now I'm riding on a space train out to the moon
Wish that I could be somewhere better with you, all I
wanna do
She's got a smile like candy at the fair, Pure secret love
just so rare
That I die all the while were not together

Girl you know that I'll be by your side forever
And you know why I'll be by your side forever
Girl you know that I'll be by your side forever
Forever

You already know your all that I ever wanted for
And I wont let you go
