i'm
i'm not the one
the one who is right for you
i can't explain it's already said and done baby now
the time that has past us
the images fade away
and all that i've got is thoughts of the past

and i still miss talking
i still miss walking
my heart just wont give you up
i'm a shadow on the run
waiting for the sun
i still miss us

these days i try to forget you
start to make some sense
the road up ahead the one left behind
forget the lie
the fading in our lives
but somewhere deep inside
it's a shining there for you and i

and i still miss talking
i still miss walking
i still miss the sound of your voice
like a whisper in the wind
that takes me back again
i still miss us

and we've come such a long way
and i feel like i'm on *the* losing *end*
and i know i said some stupid things
that i cannot take it back

and i still miss talking
i still miss walking
i still miss the sound of your vioce
like a whisper in the wind
that takes me back again
i still miss us
mm-oooh

i still miss us
oooh
