The ocean has turned black again
And I'm still missing you, my darling
Alone but hopeful, I'm still here
Waiting for a sign you should be giving
Isn't it love
That we are feeling ?
Isn't it love
That I feel ?
As I look into the rain
It seems as though I can see your face
In a sea of tears
Is the only place I can be with you ?
Yes it is love
That we are feeling
Yes it is love
That i feel
Yes it is love
That we are feeling
Yes it is love
That I fell
