(lyrics:Varien)

The last battle, the God's fall  
Colliding legions of hate, all against all  
Carried away by possessed wave  
Bloody madness  
Extermination  
No winners  
Absurd horror, dying without consciousness  
United in fear, massacre and blood  
In blasphemous rapture, wasted senses  
Apocalypse of merciless rulers  
Extermination  
No winners  
On the edge of times - HATE  
Existence died - CALM

Darkness unite in brightness  
The next abyss is coming  
Crushed faces, fire and torment  
The last battle... again!!!
