Grimly fiendish plays the game that never plays

Sing out loud but never prayed

Grimly fiendish wears a coat that's black and long

He doesn't know that it's all wrong

Simply fiendish, a child caught in a grown up world

No lies convince the court

Once a week I could be found on the faces all the  
frowns

Hide and seek, tried so hard to find that crime could  
pay

Just for today  
(chorus)

Bad bad bad boy (x8)  
Let me get the story straight

You never gave me a break

It's a case of give and take

You didn't make me good you just painted me green

You made me part of your forgotten dream  
Grimly fiendish, we'll send you just where you belong

Where the children can't be found  
(chorus) (x2)

Hide and seek, tried so hard and just to find that crime  
could pay

Just for today

(chorus) (x16)
