I hear cries and whispers in the night  
But i know that i was in the right  
Hear footsteps echo behind me as i walk  
People listening when i talk  
Chorus :

No room for error no room for mistakes  
No time for friends it's for your own sake  
It's for your own sake  
Go to the window and what do i see ?  
Killers face looking at me  
Go to the window and what do i see ?  
No room for feelings  
Careless talk costs lives  
Cold as the cold war front  
The red star life  
I see faces when there's no-one there  
Memories that,i don't need to share  
Repeat chorus  
Go to the window,what do i see  
Go to the window  
The killer is me  
It's meeeeeeeee  
It's meeeeeeeee

(whispers :)  
Twist and turn,twist and turn,twist and turn
