Pissmafia coming through, u piss on me i'll piss on u,
It doesnt't matter if u gotta weak bladder
Its coming back around again bitch..
Humiliation- that's my special request
Manipulation- that's my special request
Subordination- that's my special request
Segregation- 'cause u do it the best
I know u love my eyes when i look at you
Black and blue and so bruised and so beautiful
I wear the blood stained fairy-tale gown u love
Picture purrfect im ready right now lets go
Laying awake waiting for you
You said u would make me sorry
My head is now and my eyes are closed
'cause i don't need to see what u do to me
"im nothing but a (bitch),
If i get u in my mouth i'll bite it off,
In the middle of the night you'll try to move,
But you can't move, you wont move"
(taken from Ethyl Meatplow's "sad bear")

Humiliation- that's my special request
Manipulation- that's my special request
Subordination- that's my special request
Segregation- 'cause u do it the best
All made up i lay and wait for you
On display like a coveted prize
Give me all your anger your hate and your pain
The more u hurt me the bigger i smile so fuck it!
Laying awake waiting for you
You said u would make me sorry
My head is now and my eyes are closed
'cause i don't need to see what u do to me
Sting on my flesh, sting on my eyes
Your blood fairy cries
Leave me tape up was u walk out the door
You'll always come back to your duct taped whore
Your purrfect beauty queen down on my knees
Duct tape discipline is all that i need..
I need it i need it.. right now!
