In this democracy I as a citizen
reserve the right to stand up for what I believe in
In this democracy I as a citizen I'm not accountable to
the government
In this democracy the government is accountable to us,
the people
In this democracy the government is elected by us, the
people
To represent us, the people
In our best interests, on a national and international
scale
And if they're not doing so, In this democracy,
I as a citizen reserve the right
To raise up

I will not move, I will not change
I will not bend over their games
I will stand tall with a full frame
I will take pride to stake the claim

I swear, as a citizen of this country
To stand up for what I believe in
I swear, as a citizen of this country
To not just sit around, bitching and mourning
I swear, as a citizen of this country
To take action if action be needed
I swear, as a citizen of this country
To realize that the power is with us
And no one elseâ€¦!

I will not move, I will not changeâ€¦!
X4

I will stake a claim
I will stake a claim
I will stake a claim
I will stake a claim

I will not move, I will not changeâ€¦!
