i became a father  
tin can shooter  
makes us ready  
he lies in waiting  
and i hope we find it  
before they find it

oh, oh , oh  
so i tell stories  
make my friends tick  
they like me for it

so bring on the papers  
cause we're ready for it  
what makes us ready

the site of the (brower?)  
the taste of , something  
the thought of houses  
rows of houses

the site of (brower?)  
the taste of something the thought of houses  
rows of houses  
rows of houses
