Now you've made it so clear
You've realized my fears
So clear you've got a lot of nerve
No one
No one ever leaves me
I must have misunderstood you
You've sent a tractor down my spine
And straightened out the curves
You've got a lot of nerve
There's better ways to spend your time
Than spending it with mine
You've got a lot of nerve
You can't do this to me
This can't be happening
You can't do this to me
